

# SmartEquip™

Your Equipment Just Got Smarter.™

WWW.SMARTEQUIP.COM

**“An excellent solution to drive down total cost and create significant savings.”**

Christopher Barnard  
President & CEO  
Wacker Construction Equipment AG

## Wacker has been SmartEquip'd

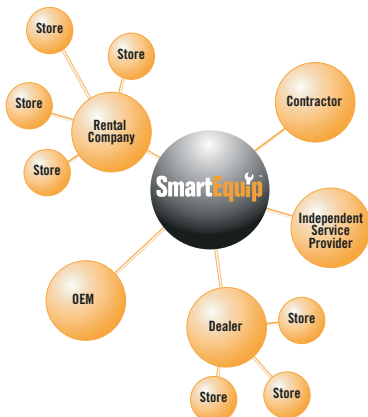

We know in the rental business that sidelined equipment equals loss of revenue. Now that Wacker is on the SmartEquip Network, parts ordering is a breeze. So is providing top-notch product support. That means your Wacker equipment is ready and able to generate you more money.

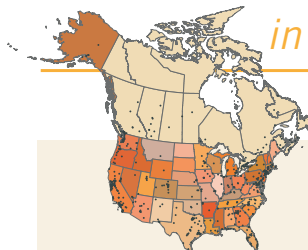

And that's just smart.

SmartEquip's mission is to provide an industry platform that enables manufacturers, distributors and equipment owners to dramatically increase asset productivity while reducing the cost of doing business. The SmartEquip Network assists with key product support activities – from parts and service to safety, training and warranty submission. Our team has created a win-win solution that improves transaction speed, accuracy, profitability and customer satisfaction.

To find out how SmartEquip can streamline your business, please contact **John Caskey**, **Phil Silver**, or **Mike Birch** at 203-899-1800 or email [info@smartequip.com](mailto:info@smartequip.com).

*The SmartEquip Network is live in 1000s of locations in North America*

### Who's on the network?

Manufacturer participants include DEUTZ, JLG, LeeBoy, Lull, Magnum Products LLC, MANITOU, Mi-T-M Corporation, Multiquip Inc., SkyTrak, Sakai America Inc., Sullair, Sullivan, Volvo Construction Equipment and Wacker. Fleet owner participants include rental companies such as Acme Lift, The CAT Rental Stores, Sunbelt Rentals, Volvo Rents and a growing list of the *Rental Equipment Register* (RER) magazine's Top 100 rental companies and independent rental companies.

### Three of the 20 ways SmartEquip can benefit you:

- 1 Time savings each time you place a parts order.
- 2 Reduced ordering complexity / errors via intelligent parts identification.
- 3 Access to real-time parts inventories to determine in-stock or ship-to dates.
